**EASY NOW TO
VACCINATE HOGS**
Hog Cholera Can Be Prevented Surely And Inexpensively By Home Vaccination.

A prominent and widely known veterinarian has written a book entitled "The Secrets of Vaccination", which any reader may have free of charge. By following the simple directions in this book any farmer can vaccinate his own hogs with the AMVETSC hog cholera serum, and save from twenty-five to fifty percent.

Heretofore it has been practically impossible to buy serum at home. However, since vaccinating is made so easy under this prominent veterinarian's suggestions and instructions, incorporated in this free book, the Stone's Pharmacy has decided on this policy as it will enable farmers to vaccinate at any time they wish and also save a great deal of money.

There can be no better serum than they supply because it is made under Government supervision and then thoroughly tested under actual field conditions, making a double test serum.

Simply call or send you name to Stone's Pharmacy, North Platte, Nebr. and get an interesting booklet on the prevention of hog cholera and special price list free. —Advertisement.

Today we are happy in the thought of the confidence of our friends, their faith in us as merchants and as individuals.

We extend to all our sincere wishes for a Happy New Year.
